Community High School*

The Oiler '65

Wood River Illinois

DEDICATION

The main purpose of any school building is for teaching. All features of the building should promote the instructional program. In our building each classroom has ample space and is attractively decorated and furnished. Moveable partitions allow reorganization of space whenever there is a demand for more space. Operable walls allow large group instruction. Teachers have planning areas where equipment, supplies, and reference materials may be centralized. Basement areas give easy access for any repair or maintenance work, and provide ample storage space. The inner courtyard provides an area for exhibits, recreation, programs, and meetings.

The atmosphere of the building is that of a place of learning in the 20th century.

ACTIVITIES

The Oiler Layout Staff is responsible for the entire make-up of the yearbook. In order to succeed in this, each section is planned completely before any actual work is done on it.

The cover and each division page are designed and drawn up. Colors for these are also chosen. After an arrangement has been designed for the classes pictures, the photos and names are put in order on the correct pages. The pictures are cropped and fitted to the proper sections of the pages, which are kept in order.

For each club and organization there should be a write-up, and is done by the write-up staff. After all this is done, the staff sees that all copy is properly checked and arranged, and that it is sent in before the deadline to be published.

They also sell the advertisements to be put into the yearbook.

The Oiler Business Staff saves money for the student's who buy yearbooks, because a yearbook actually costs about \$7.50. But because of the money they raise by selling ads, the price paid by the students is only \$4.25. The Oiler Business Staff deserves a great deal of credit for helping make our yearbook possible.

The Story of the Play

The ancient Greek *ANTIGONE* involves two sons and two daughters of Oedipus, late king of Thebes, and his brother Creon, who has become king. The two brothers create a civil war and kill each other. Creon, full of righteousness and edicts, has ordained that one of the brothers be left unburied—carrion for dogs and vultures. Antigone, one of the sisters, defies the edict, heaps earth upon the dishonored corpses, and is buried alive for punishment. This sets off a chain of deaths which rocks Creon to his base.

This year our team was led by two new coaches, Wayne Williams and Carl Crawford, due mainly to the resignation of Coach Yocum. They have done a great job in helping the team come through for our school.

Although we lost our Homecoming game to Granite City, we beat Alton for the first time in eight years, 34-0!

Write up: This year the Gymnastics team is still held back by lack of competition. The main competition comes from Roxana High School where we top them in tumbling and trampoline.

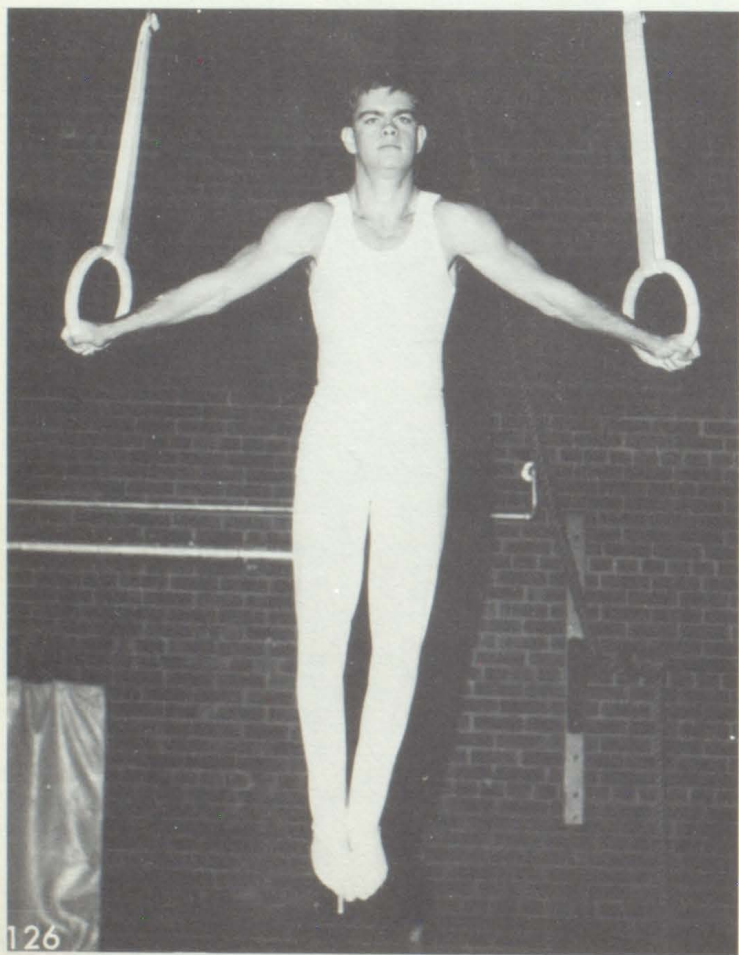

Gymnastics contains many strenuous things such as: exercises, calisthenics, and acrobatics. Gymnastics is a good activity which can provide "lots of fun" but which can also be "lots of work".

We want to wish our Gymnastics team lots of luck in the future.

Our wrestling team has proven its worth by winning three out of five of their matches. We lost to our biggest opponents, Granite City and Southwestern. This team does a very fine job of contributing to our school spirit.

come alive!
**You're in the
Pepsi generation!**

Today's kind of living calls for two kinds of Pepsi-Cola. Drink famous regular Pepsi for the clean, bold taste...plus energy to liven your pace. Enjoy new Diet Pepsi-Cola when you want honest-to-Pepsi taste, lively Pepsi sparkle...with less than a calorie a bottle. Either way, it's the official drink of today's generation!

WE'RE GOING WITH YOU

Whether you know it or not, almost every day of your school year you've used a product made by Olin Mathieson, or one that Olin Mathieson helped to make.

Once you're established in your life's work, you'll probably hear a lot more about Olin Mathieson. A good many of you may have business with us, and a few of you may even come to work for us. There will be room because Olin Mathieson is growing. When Olin Industries, Inc., merged with the Mathieson Chemical Corporation in August, 1954, they brought together the skills, facilities, and resources of two of the country's most rapidly expanding industrial organizations.

We extend our best wishes to you. May the future bring you all you've hoped for and everything for which you have worked.
